TECHNICAL SKILLS

- Programming:: Java, Python, Lua JavaScript, HTML/CSS, React
- Tools: Roblox Studio, Git, Excel
- Other: Object Oriented Programming (OOP), UI/UX Principles

WORK EXPERIENCE

iDTech Camps ~Lead Instructor | Cincinnati, Ohio & Roblox Headquarters, San Mateo, CA **May 2025 - August 2025**

- Taught **37+** students Lua scripting and game development with custom mechanics, features, and monetization tools
- Instructed **23+** students in Java fundamentals and OOP, guiding development of games and algorithmic projects
- Led Roblox game development classes at **Roblox Headquarters**, teaching students to design, script, and publish games directly on the Roblox platform.

Bon Appetit ~ Hygiene Coordinator | Greencastle, IN

Oct 2024 - Present

- Worked **2** semesters of early morning shifts, earning a permanent role alongside full-time studies
- Displayed adaptability by managing diverse tasks, including food prep, cleaning, and closing during understaffed shifts.

Muslim Student Association~ Event Coordinator | Greencastle, IN

Aug 2024 - Present

- Planned and executed **6** cultural and religious events, including Ramadan Iftars that served 100+ attendees.
- Worked closely with campus departments to secure spaces, meals, and outreach, earning praise from faculty, staff, and the University President.

LEADERSHIP EXPERIENCE

International School lahore ~ Community Building President | Lahore, Pakistan

Aug 2023 - July 2024

- Secured school collaboration with **3** external NGOs to enable broader access to projects and amplifying impact.
- Raised **1500+** dollars for Alkhidmat NGO by conducting a bake sale which hosted **22+** stalls by students and staff.

Lahore Grammar School ~ IT Representative | Lahore, Pakistan

Aug 2021 - July 2022

- Helped **630+** students by starting an IT helpline on school forums which had **6** active representatives ready to guide.
- Organized monthly tech workshops, introducing students to basic software tools and troubleshooting common IT issues.

Falah NGO ~ Shamma Head | Lahore, Pakistan

Dec 2019 - Mar 2023

- Led **3** awareness sessions at orphanages, educating communities on compassionate care for children with special needs.
- Raised **2000** dollars to distribute **166+** rations bags in Balochistan amid the famine caused by the 2022 flood.

PROJECTS

To-Do List Web Application (July 2025):

- Built a dynamic to-do list web app using **Node.js**, **Express**, and **EJS** to add and display tasks.
- Implemented form handling with **body-parser** to process user input and update the list in real time.
- Added support for multiple lists, including a dedicated "Work" list, and displayed the current date as the main list title.

Skills and Interests

- Proficient in basic algorithms, data structures, and debugging techniques.
- I enjoy working on small coding projects and exploring software development tools.
